Senior Full Stack Developer with 7 years of experience spanning React/React Native front-ends and Python/NodeJS back-ends. Proven expertise building embedded POS systems, self-service kiosks, and adaptive SaaS platforms for retail, hospitality, and B2B — including a solo-built and launched B2B SaaS. Recognized for breaking down complex technical challenges, leading UX/UI overhauls, and delivering scalable solutions that measurably improve product performance and operational workflows.

Core Competencies

- **Front-end:** React, React Native, JavaScript/TypeScript, HTML5/CSS3, UX/UI optimization, WCAG 2.2 AA accessibility.
- **Back-end:** Python (Django, FastAPI), NodeJS, Java (Spring, SpringBoot), C#.
- **Systems & Tools:** POS architecture, self-service kiosks, payment processing, server management, monitoring (Grafana), Claude Code (agentic AI-assisted development).
- **Industry Expertise:** Hospitality, retail, B2B SaaS, government systems, cross-functional agile squads.

Professional Experience

- **E-Deploy (an iFood company)** **Remote, Brazil**
Jul 2025-Present
Full Stack Developer
 - Developed and maintained the '3S Checkout' platform: an end-to-end sales ecosystem for hospitality and retail featuring embedded POS, self-service kiosks, kitchen management, and delivery
 - Built full-stack features integrating user-friendly front-end interfaces with complex backend systems for order management and payment processing
 - Optimized operational workflows in restaurants and markets, reducing transaction times and improving customer experience
 - Collaborated daily within a cross-functional agile squad (Product and Design)
- **Stefanini Brasil** **Remote, Brazil**
Jul 2022-Jul 2025
Senior Full Stack Developer
 - Led a major UX/UI revamp for enterprise client Cencosud, modernizing the assisted sales system across mobile and web to streamline checkouts and boost staff productivity
 - Translated intricate business needs from client stakeholders into scalable, user-centered technical architectures
 - Managed the full development lifecycle of internal sales platforms: React and React Native frontends, high-availability backends
 - Promoted from Analyst to Senior Analyst (Aug 2023) for consistent code quality and proactive resolution of critical technical challenges
- **Valoroso Ltd** **Remote (contract)**
Apr 2019-Jul 2022
Global IT Support Analyst
 - Supported global IT infrastructure for the VOTT Platform; improved server management and monitoring/alarm systems for high availability
- **MaestroTech Soluções em Tecnologia** **Remote (contract, concurrent)**
Jan 2019-Apr 2021
Full Stack Developer
 - Engineered a large-scale Case Management System used directly by the Jamaican government to oversee Juvenile Facilities operations
 - Delivered end-to-end features with Java (Spring, SpringBoot), React, and Python under strict public-sector standards for security and data management

- **Itaipu Technological Park** **Foz do Iguaçu, Brazil**
Intern Software Analyst *Sep 2018-Apr 2019*
 - Foundational full-stack development at the Latin American Center for Open Technologies (CELTAB)

Featured Project

- **Seu Método** seumetodo.com
B2B SaaS Creator & Developer

Solo-built and launched a full-stack B2B SaaS for deadline-bound service operations (labs, workshops). Replaces legacy ERPs with a Kanban workflow, automated WhatsApp notifications, and a white-label mobile tracking portal. Engineered a highly adaptive React UI serving three user contexts: high-density backoffice, touch-friendly shop floor, and public portal.

Education

- **UNINASSAU** **Brazil**
Technologist in Systems Analysis and Development *2021-2023*

Certifications: React: Creating and Hosting a Full-Stack Site; React Hooks; React.js: Building an Interface; React: Authentication; React: Accessibility.

Languages

- Portuguese (native), English (advanced/fluently), Spanish (advanced).
